- Over 55% customers are first time borrowers from formal ecosystem
- Similarity in profiles enables efficient and faster underwriting.

- Strong focus on asset quality and onboarding only quality portfolio.

3 Own sourcing Model; no dependence on DSAs

- 100% sourcing is done by regularly trained in-house Direct Sales Team (DSTs) or Feet on Street (FOS) staff; also generates cross sell opportunities for insurance.
- DSAs prone to influence customers to Balance Transfer with other lenders in pursuit of repeat commission; In Direct Sourcing model of the company, this is eliminated.

4 Multi Layered Credit Approach

- Customized underwriting approach basis the customer's profile; Credit team personally spends time with customer to understand business dynamics and derive cashflows.
- In house Legal, Technical and Fraud Control Units as well as empaneled vendors for conducting due diligence and eliminate fraud risks.

The NBFC Advantage in MSME Funding

- Lack of formal avenues for financing ensures low penetration from banks
- Banks face issues in financing MSMEs due to high NPAs, high processing times and capital challenges
- NBFCs offer higher loan eligibility with shorter turnaround times
- Capital and lending norms for NBFCs are more lenient as compared to banks allowing them greater penetration in smaller towns and villages

MSME credit to grow at 12-14% over 5 years:
ICRA

Non-bank share in MSME credit pie should
expand to 22-23%
by March 2022 vs 16% in March 2017: ICRA
